### CA-163-E-1

Looking southeast at Building 4213/E-14, Test Stand "C" Workshop. North side of Test Stand "A" superstructure appears in background. The elm tree at left was planted for aesthetic purposes. Note the closed-circuit television camera mounted on a mast at the corner of 4213/E-14 for observing tests, and the emergency shower and eyewash bath stand at the door to the building. An outdoor workbench and tool carts lie in the immediate vicinity. Rising above the roof of 4213/E-14 is the top of the concrete block wall of Assembly Building 4288/E-89.
